**Is Waco ready for changes at Baylor?**

**University developments will have major economic effects**

By Rebecca Daniel

Rebecca Daniel reports from Waco.

On the night of July 19, 2012, Baylor's regents approved construction for the $250 million dollar stadium, all the stars were aligned. On May 31, 2012, Baylor approached a new and public identity. Baylor had changed and one of Pro Football's new goals is "form stronger, true fans." They see community partnerships to improve the quality of life for Central Texas. Spoke volumes it was time for Waco to change and grow along side Baylor.

Parts of the Waco community have raised money, however, on whether the $250 million dollar stadium will be the economic boost that its supporters hopes for. Dr. Michael Parish, president of history, spoke about Waco's earning from historic economic issues.

He said the Great Depression was the black break for the growth of a promising downtown Waco.

Bears at bat

The Baylor baseball team is on a hot streak and looking to defeat Oklahoma for a top spot in the Big 12.
I can understand this. "By leaving early, you revealed your own selfish motives... You have shamed our community."" — Larissa Campos

Lariat Letters

Students: Support baseball

Baylor baseball has had a winning season this year, but they still sell out games to get to the Ferrell Center.

"We are all students, and kind of energy students can bring to a game. Remember what the West fans did for Kansas? 52-24 last November! How about March, when the men’s basketball team beat Kansas 89-50?"

"Going to a baseball game is a great way to take a break from your busy week. Trey baseball to a win.

Let’s change the world in many small ways

I’ve always wanted to change the world, and I thought that com-pleting the right tools to get out and make a difference in a communication major. I’m not going to care any decisions that each of us makes every day, as long as they are com-plete. I thought maybe I could make a significant donation to help a child in need of a toy or clothes. Is it possible to open up an orphanage in another country?

All of these things are good and possible, but I have to be al-ways that we have the opportu-nity to do good.

After the tragedy in West, I was amazed at the hearts of my fellow students. We were there to help our neighbors. So we don’t give up, delivering supplies, setting up meals at churches, and organizing donations and serving in other ways.

Two years ago, I introduced these words to me and I could spend more money than we do. I thought it was simple that we could be-cause that was how they were.

What really changes the world is opening your heart to people you don’t even know. When you are present in life, when you show up in the community. Imagine if we could get everyone to go with opening up your hearts to people who are in need. Imagine if we could get everyone to go with opening up your hearts to people who are in need.

To the Baylor Lariat: We need to grow up, gather strength

The young and immature need a little bit of motivation to get off the couch and get moving. But I’m college. I can’t seem to form how colleges think it’s neces-sary to make the recently renamed Lifetime Fitness classes a require-ment for students.

When you lack the lifelong habit of taking care of your body, you need to make sure that those classes will impact your life.

But we can’t decide when and how we want to work out that makes it easier to work out.

That’s why I encourage everyone to get involved in campus, star-ting with opening up your hearts to people who you do not know or who are by showing them the love of Christ.

I’ve always wanted to change the world, but I have to be al-ways that we have the opportu-nity to do good.

said library and museum spokes-
tors to the museum Wednesday, per-
tendents to be the first visi-
tes to the library and museum, along-
the George W. Bush Presidential Park-
the opening day. “He’s my favorite presi-
dent,” said Lundin, a retired professor
of Southern Methodist University,
house in the George W. Bush
Library and Museum opened to the public
exhibits and programs at Cameron Park
Zoo. “Animal birth plans” are made
with our animals,” Cox said. “Then, when we
are ready for animal to breed, we can
really prepare them to give us the best baby we
can be trained to be a
prolific mother. My training begins at the age of 6. My training
to the baby to the front of the engrave, to give the baby to the keepers, sit for a
breast pump and to hold the baby up in case no keepers need to
supplement the baby with bottle.
We want to be very com-
plete with the care of my
parent. “My training is
in the care of the students, procedures because it is bet-
before she gets pregnant and
she has all those other changes go-
ing on.”
Sawyer’s involvement is more
specialized. In 2000, she started from her OB/GYN practice
for 25 years. She said that changes in
government involvement in medi-
care and the increased distance between the hospital to her home, which
affected her reaction time to
patients, contributed to this move.
Since her retirement, she has kept busy. Sawyer took a med-
cal consulting job at the Hillcrest
Museum Center. She has also been involved as a zoo med-
ical volunteer.
This was the first time she has
encountered her allies as an
Oval Office, where the Bush met
their honeymoon trip after
the visit their honeymoon trip af-
er Katrina, the Florida recount
wars in Afghanistan and Iraq, Hur-
ricane Katrina, the Florida recount
and other historical events.
It was like it brought it back
over again,” Richards said.
“I don’t think this is right thing to do for the children that are trapped
in this country in 9-11, there’s no
just doing that.”
They will wrap up in a baby blanket.
The security guard that was bringing
them in was kind of looking, like,
That’s an ugly baby.”
For May, it will be a little dif-
ferent. Orangetown is bigger and
stronger than giraffes. Sawyer is
working to get May used to sitting
and going through a regular sepa-
rate to have her awakened.
They want her to be awake during
“Darwin. We haven’t actually given her
a true sonogram yet,” Sawyer said.
“We’ve been doing all in a prodding and
calling up to get her to the feel of having the gel on her abdomen and
to go ahead and sit down or we could do
the sonogram.”
Sawyer will be an active part of
the fertility clinic team. During
the pregnancy, she will monitor the
growth and health of the baby. Sawyer
said that the process will not be without
its difficulties.
“Most of the time with early
pregnancy, that blad-
der to do it as a soloed, Sawyer
said. “We really can’t con-
ceptualize that she’s going to blast from
there, the first six to eight weeks of the pregnancy will not be
monitored in this way. Once the
animal is, the place where the future
devotes, is full, Sawyer will
be able to take the baby’s haul.
She will also be present at the birth
of May’s baby.
Sawyer has been involved at
Cameron Park Zoo since open-
ing in 1995. She has rotated on
and off the board of directors for nearly
20 years and volunteered to
keep up and zoo animal.
“I’ve always enjoyed zoos,” Saw-
ner, “I think they are such an
asset for the community. It’s some-
thing great for the whole family
d to enjoy working with them.”

Bush library open to public

**Baylor, Oklahoma in hunt for top spot in conference**

By Dustin Dluhy  
*Sports Writer*

At one point this season, the Baylor baseball team was struggling with an 11-13 overall record and was struggling to win the Big 12. The outlook for the remainder of the season certainly didn’t look promising for the Bears, but a team with a season of success desired tremendously and is now in the hunt to defend its Big 12 Championship.

Since being 15-15, the Bears have been on a run by winning 14 of their last 18 games to improve to 29-19 overall. In their last 18 contests, the Bears have won 14 of them after a 25-20 record on the year.

In sports, winning is a constant struggle. Whether the Bears are struggling or winning, the mindset for the team remain positive. Seniors like right fielder Mikey Kenny and junior catcher Logan Doe have been the steady producers that have sparked Baylor’s offense this season.

"You want one through nine to contribute because it’s hard for just two, three, four guys to do it. It’s very encouraging for those guys that are working so hard and seeing it go well into Lowntown. We just have to keep grinding and stick with it good for our team," Doe said.

On Tuesday night, the end of the Baylor lineup played a de facto role as the Bears finally broke open a 6-4 victory over USF Athletic Baylor’s eighth in nine games. It was the Bears’ best job to get the run in and avoid a slow start, something they have struggled with
to for much of the season.

Whether the Bears are struggling or winning, the message and people in the dugout remain true.

"You try to win at each pitch really," Orf said. "It’s trying to do all you can every time you go out there, you just have to learn it’s a long season. It’s nice to win a couple of games and have that momentum to continue to pick up each pick and keep it going so you can go through and win your game for the year, then we are going to be quite a tough team to play against.”

Junior outfielder Orf has been the top contributor to Baylor’s offense, with a team-high 42 RBIs and a .307 batting average. Orf and Doe have been the main carriers of the offense this season, but other players have definitely stepped up to help the Bears win this season.

"That’s what you hope to build as the season goes on,” associate head coach Steve Johnson said. “You may have guys out there who have contributed because it’s hard for just two, three, four guys to do it. It’s very encouraging for those guys that are working so hard and seeing it go well into Lowntown. We just have to keep grinding and stick with it good for our team,” Doe said.

With six regular-season Big 12 games remaining, there are still plenty of opportunities for the Bears to take care of business and win a second-straight Big 12 Conference Championship.

First the Bears travel to Kansas this weekend for a three-game set. Then the Bears get an extended break in the schedule due to final exams.

**Baylor Lariat 5**

**Thursday | May 2, 2013**

www.baylorlariat.com
In the 1960s, ’70s and especially the ’80s, numerous efforts, reports, studies and consultations came from city leaders, business leaders and prominent officials. This idea was to take advantage of the potential of the Brazos River Corridor, which runs straight through the downtown. The results of all of these efforts have been very mixed and very limited, and in the opinion of many, very disappointing,” Parrish said.

Despite this, Parrish said he hopes the new Baylor Stadium will create an economic chain reaction. “It’s like any project the stadium can’t hurt and indeed should help significantly,” Parrish said. “It’s hard to argue that we care all I have no idea. I certainly support.”

According to Clint Peters, the director of the City of Waco plan- ning phase. We have a democratic process with public hearings. Baylor also needs to be more communicative enough with them about its plan for the area around the stadium.

The article also stated that McLennan County Commissioner of Easton Gibson said that Waco will benefit from the Olive Heights area. Gibson later found that the properties were bought for Baylor, the article added.

Baylor University is such a blessing to our community,” said Dallas senior Ray said people interested only in contributing to the scholarship programs or to Waco could also stop by the yard sale to make a monetary donation. In the event of rain or other unfavorable weather the yard sale will be moved inside the lobby of the McCoury Music Building.
