Kenya defeats mall terrorists; 67 dead

**Moputo Amaze**
**Arica True-Srivats 
Associated Press**

NAIROBI, Kenya — Kenya’s president praised Monday the security forces who stormed a Nairobi mall, saying security forces had “advanced and defeated our attackers” following a bloody four-day siege in which dozens of civilians were killed.

President Uhuru Kenyatta said the dead included 61 civilians whose bodies had been recovered so far and six security forces, while some 175 were injured, including 42 who remain hospitalized.

Three floors of the mall collapsed and several bodies were trapped in the rubble, said Kenyatta, who has visited wounded survivors in hospital and made other emotional filled speeches about the terrorist attack, which has been the hardest test of his leadership since he became president in April.

“Fellow Kenyans, we have been badly hurt and had great pain and loss, but we have been brave, united and strong,” said Kenyatta, the son of the country’s founding president, Jomo Kenyatta. “Kenyatta has stood down evil and triumphed.”

Kenyatta’s statement dominated over the latter stories as it is odds with the charges he has been facing in the International Criminal Court.

**Waco “Passport” to help students explore town**

By: **Claire Cameron 
Reporter**

Now ways to get involved in the Waco community, and even a chance to win a free iPad, are just a few things Passport to Waco has to offer.

The program is organized by External Vice President Lexington Holt, who wanted to get Baylor students more involved in the area outside of Baylor.

“A major part of being a community is being involved in it, and that’s what I hope this program does for students,” Holt said.

Passport to Waco is originality started three years ago but Holt said, it was not very successful.

This year, the program is being revamped and includes not only Baylor, but also McLennan Community, College and Texas Health Technical College.

Holt said she has been working on improving the program since June of this year.

Holt said the “passport” is a booklet with various foods, clothing and other stores around Waco where students can go and, if they purchase something, they can get a stamp for that store. If they complete the entire booklet by the end of the program, they earn a book for the student government office, they will automatically be entered to win an iPad.

Students can also earn extra stamps along the way like 50 cent discounts or discounts on merchandise.

The program launches Tuesday and students can pick up a booklet at the student government office. The program ends March 11.

“The best part is it’s going to be a tri-campus program,” Holt said.

Holt said she is looking forward to it.

50 years later: Exhibit highlights life, legacy of Kennedy

By: **Erinna Finner 
Staff Writer**

This November, it will have been 50 years since President John F. Kennedy was assassinated, and W.R. Poage Legislative Library is honoring Kennedy’s life and legacy with an exhibit that will last through May 2014.

The exhibit opened to the public on Sept. 3 on the first floor of the library, featuring numerous artifacts and photographs relevant to Kennedy’s life. Ben Rogers, director of the W.R. Poage Legislative Library, said the exhibit is divided into three sections: Kennedy’s life, his legacy and his assassination.

Objects like press camera models and bullets of the same type as those used on the day of the assassination are available to view, along with newspapers from Waco, Dallas and many other publications.

Kennedy’s campaign buttons and posters have been donated and are on display, as well as extracts from the Associated Press and United Press International from the time of the attack.

The exhibit also displays a 5 x 5 inch record donated by a radio broadcast of recorded quotes from Lee Harvey Oswald himself. “Was Oswald mad? Listen and judge for yourself,” Rogers said.

Rogers said one thing the library has that can be found in no where else is a letter from the priest who read Kennedy’s last rites. The latter describes how the priest, Father Oscar L. Huber, perceived agony on her face, “Huber said in his letter of the president’s wife, Jacqueline Kennedy. The items on exhibit have been determined from people across the nation, Rogers said.

Much of the exhibit is also dedicated to the research done around the assassination of Kennedy, including glass slides, an anatomical drawing and writings that have been made by various professionals over decades.

The exhibit also highlights many different theories that have been made over time about the reason Kennedy was killed.

“Isn’t the Cold War doing it? Did the government do it? Did Lyndon B. Johnson do it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it? Was the Mafia behind it?” Rogers said.

The exhibit opened in May to the public and has been working with the exhibit.

The section of the exhibit concerning Kennedy’s life has been worked on by Erik Swanson, Moorpark, Calif., museum director for the John F. Kennedy Library and has been working with the exhibit.

“For me, the biggest mystery is the reason why he was killed,” Rogers said.

Grackles are jerk birds, should leave Waco for good

So God created all the creatures of the earth and gave them every green herb for food. And it was so.

After you graduate high school, everyone wants to know what you're going to do. As a senior, I've had plenty of experience answering these types of questions. For the better part of three years, I've been able to answer, "I'm a journalism major though it doesn't mean I know what the pre-mail before I heading to the first feeling class.

They harass other birds so badly we need to know what we're doing yet. But that we need to at least have an idea when.Popen your years around. By senior year, we should have it figured out and have interviews lined up.

What we've learned is that it's not easy. Junior year, I wanted to be around journalism and become a lawyer, then a public relations specialist, then a teacher. But it's not that easy for you. I'm thinking about writing, but now that I've broken it down, I'm thinking about editing. And it's what we do stuff with every day. We are all characterizing this as a "stuffy" for London and "ambient" for New York. Liz is having dinner with people. But don't let that title define who's to say other students on campus aren't going to do the same thing?

Grackles like the Pokeweed known as Paley, catching them in small plastic balls and giving them the least attention of all animals in our possession, only taking them to sacrifice in battle so that our victory can fight a slightly more disadvantageous warfare. Waco, telling them they don't have to answer to anyone as long as they're doing their work. We're a large group, sacrificed one of the flock to be chased and driven into a private store once a week, popped on sidewalks and screamed like a corncob player choking on a Fruit Roll-Up.

I don't know what the black, shiny and dashing birds known as grackles do. We know they have pale yellow beaks, telling them they don't have to answer to anyone as long as they're doing their work. We're a large group, sacrificed one of the flock to be chased and driven into a private store once a week, popped on sidewalks and screamed like a corncob player choking on a Fruit Roll-Up.

So again, we're urging families to start to try out work that may arise in the families. If that, they cannot still make a cohesive united family will have to undergo the appropriate channels to ensure the child goes to a loving home that has been visited as a safe environment for the child. We urge hopeful adoptive parents to see the appropriate pathways if it's expensive and time-consuming in order to drive down the demand for these mar-

lots. And finally, we urge law en-
forcement agencies to keep an eye on these transactions. These children cannot stand up for them-
selves, so they need us to look out for them.

Becca Fiddler is a junior journalism major from Beverly. She is a copy editor for the Lariat.

We strongly condemn this unconscionable act of re-homing, the child is merely a number to the child. I'm a journalism major though it doesn't mean I know what the pre-mail before I heading to the first feeling class.

Iran, and Iran is in something of a quandary. It is in a difficult position because the Assad regime is supported by Russia and Iran. And so the situation in Syria: refugee flows going into Lebanon, growing beyond what was originally expected.

Iran has thought about the Syrian conflict in the past. In the past, Iran has thought about how the situation in Syria could evolve and how Iran could benefit from it. Iran has thought about how it could benefit from the situation in Syria and how it could use its influence in the region to gain leverage against its enemies, particularly the United States and Israel.

But until recently, Iran has not acted on its thoughts. Iran has been cautious in its actions, not wanting to take risks that could escalate the situation in Syria and involve Iran in a conflict that it might not be able to win. Iran has been focused on its domestic affairs, which have been plagued by economic problems and political instability.

However, Iran has recently become more active in the Syrian conflict. Iran has been providing military support to the Assad regime, including in the form of weapons and fighters. This has put Iran in a position of strength in the region, and Iran is using this position to advance its interests.

But Iran must be careful in its actions. Iran must not be seen as a threat to the United States or Israel, or it could face military action from these countries. Iran must also be careful in its actions to avoid escalating the conflict in Syria, which could have negative consequences for Iran and the entire region.
While the Lariat certainly doesn’t con-tribute substance, abuse, this recipe is all in the spirit of fun and informing a popular television show.

This Heisenburg-approved recipe is as easy, fun as Jesse couldn’t screw it up.

Heisenburg’s Blue Sky Candy

What you’ll need

- Light corn syrup
- Water
- Blue gel food coloring
- Colorless baking extract
- Candy Thermometer
- Cookie sheet lined with foil
- Cooling spray
- Parchment paper
- Mallet

What to do

Spray the cookie sheet with cooking spray

Spray the cookie sheet with cooking spray

Saucepan, bring the sugar and corn syrup to a boil, stirring and wiping down the sides with a wet cloth

(only a little). In a saucepan, bring the sugar and corn syrup to a boil, stirring and wiping down the sides with a wet cloth

Pour onto the cookie sheet and immediately pull off heat.

Pour onto the cookie sheet and immediately pull off heat.

Bring to 285 degrees Fahrenheit

(about 45 minutes). Using the mallet, crack into the sugar. Pour onto the cookie sheet and immediately pull off heat.

(about 45 minutes). Using the mallet, crack into the sugar. Pour onto the cookie sheet and immediately pull off heat.

Spray the cookie sheet with cooking spray

Spray the cookie sheet with cooking spray

- A confectioner in Albuquerque

- The fresh batch of “ice” into pieces.

- (only a little). In a saucepan, bring the water, sugar and corn syrup to a boil, stirring and wiping down the sides with a wet cloth

- Mind the flavoring as the stuff it spoofs.

Baylor junior middle hitter Nicole Bardaji had 14 kills and six blocks for the Bears in Wednesday's 3-0 win over Lamar in the Big 12 Conference opener. Bardaji has now done it three straight matches, and six out of the last eight.

“Author’s performance may be a surprise to some people, but it’s his time,” head coach Art Briles said. “He’s a really good middle hitter who does what we need him to do.”

With the addition of Goodley, Baylor has a dynamic duo at receiver. Bardaji has more than 1,800 receiving yards in his last two seasons. He has compiled 263 receptions for 3,782 yards and 28 touchdowns in 52 career matches.

“This is definitely good to be here,” Bardaji said. “I’m just still not where I need to be.”

“Baylor’s a killer, people haven’t seen me play. I think the people that have, can see that I can play.”

As Seastrunk continues to put up numbers on the ground, he’s hard to contain. Seastrunk rushed for 156 yards and six touchdowns on 10 carries against a University of Louisiana-Monroe defense that allowed 15 rushing yards to Wake Forest and 54.5 yards in its last game.

As he cuts through a ballet of defenders with his sole purpose being to give the offense a spark, junior Lache Seastrunk is not just an average running back. Seastrunk has averaged 139 yards a game this season and holds the nation’s longest consecutive 100-yard game streak at seven games, but his personality is equal if not more dynamic.

Despite making controversial comments in regard to winning the Heisman, Seastrunk won’t back down from it. He is honest with himself and will tell it like it is. “The commitment we have to our program is what’s most important,” Goodley said. “Our chemistry is really good and it’s really good what we need him to do.”

Baylor’s first team offense has not played more than three quarters of the second half so far this season thanks to blowouts against all three of its non-conference opponents.

Baylor and Goodley are one of only three sets of teammates in the Big 12 to record 100-yard rushing yards in a game.

Among players who have played at least three games, Goodley and Rees have had 264 total yards of rushing.

“Goodley and Rees have done everything we’ve expected for them,” Briles said.

Baylor junior outside hitter Anthony Goodley is the nation’s leading returner from last year after a stellar start to the season. The Bears are 1-0 on the season.

“I get to kick my foot up and play video games and study,” Seastrunk said. “OK, maybe I don’t do my video games, but I do my work.”

Seastrunk’s personality as dynamic as his game

used to future collaboration with the other campus.

“Once the program accomplishes one thing, I hope it brings all these campuses and their student bodies together,” she said.

Holt said she wanted to tr-

eling together the three cam-
puses and make Baylor students more aware of the other college students.

“Passport To Waco will get students involved in Waco and its reach,” Hilt said. “You see the community and it becomes more visible and then we won’t see each other as separate entities anymore.”

Hilt said she believes this project will be vital in getting Baylor students more involved in the community.

“I want to make a difference,” Hilt said. “Passport To Waco en-
compasses everything I’m sup-
posed to do, and it makes me happy.”

Another improvement to the program is the number of busi-
nesses involved in the program.

Some of the businesses in-
cluded are Battle Burger, Congres.
Camping, What About Cupcakes and more.

“With more businesses, it’s better and has more value for students,” Hilt said.

Outdoor Waco is one of the many businesses involved in the program.

“I really like the idea of Bay-
er and downtown Waco getting

together and in hanging out.

It’s a great way to promote the

ie these guys,” Hilt said. “This is really exciting in getting Baylor involved in the wa-

of part of that.”

She also said the hope of the pro-
gram will get more students involved.

Another student added commen-
ties and one another.

Once the program launches the books are out, Hilt said she suggest getting dinner at Tia La Bar in downtown Waco.
