In Texas, abortion rights advocates are battered by a host of state laws, including a 2013 legislative and judicial ban on Planned Parenthood’s last clinic in San Antonio. The resulting law has shuttered more than 80 percent of Texas’ abortion clinics.

In the 2011 legislative session, the Texas legislature passed SB 5, which required non-hospital abortion facilities to meet the same standards as ambulatory surgical centers. This resulted in a substantial increase in cost and regulation for abortion providers. The law, later struck down by the Supreme Court, exemplifies the anti-choice efforts that have been ongoing since the 2010 election.

Pumpkin’s nutrition not found in fall treats

By Vincent Loew

You may enjoy the fall season because of societal traditions, but for many nutritionists, the pumpkin gets more attention than it deserves. The amount of nutritionists who believe the pumpkin gets too much attention is a sign that we need to look at the health benefits of other crops.

The pumpkin is actually very nutritious, but it is also high in calories and sugar. One medium-sized pumpkin (2.5 pounds) contains 145 calories, 36 grams of carbohydrates, and 0.8 grams of fat. The pumpkin is also high in fiber and phytochemicals, but it is not a highly nutritious food.

The pumpkin is a popular fall season staple, but it is not a highly nutritious food. It is high in calories and sugar, but it is not a highly nutritious food.

At Saturday’s match, Brynn marched alongside a group of Pal- merton students, who stepped up to the oncoming crowd with their own signs. Escamilla, a Palmerton student at San Antonio, came to the march to show support for people affected by the shooting.

As the large crowd navigated the streets, many sang civil spirituals “This Little Light of Mine” and “We Shall Overcome” were chanted, earphones were worn, and signs that read “Hands up! Don’t shoot!” and “Fight back!” were frequent choices. March organizers asked people to wear black, as the first black woman to be arrested in the U.S. was arrested wearing black. March organizers also asked people to wear a black sweatshirt, which Escamilla wore.

Escamilla said she followed the movement since the beginning. “I’ve just worked for civil rights my whole life,” she said. “My husband was a civil rights activist who got arrested a lot. We were in a lot of rallies together.”

She said that the movement in St. Louis was different in that it was not about race. “This is our opportunity to learn.”

As the crowd gathered in Kiefer Park, hundreds marched past the downtown courthouse, singing, shouting and dancing. After Brynn was helped through the back of the crowd on a chair by a friend and she was able to sit down, Escamilla said she was amazed by how many different groups of people marched alongside each other.

According to Brynn, the movement was “a feeling. When we needed to step up, we stepped up. When we needed to do something, we did something.”

Escamilla said she followed the movement since the beginning.

Ford said. “This year, I was diagnosed with triple negative breast cancer. I was no sicker, but I was a lot more determined. I was determined to do everything I could to stay healthy to looking like a cancer patient. Williams checks herself regularly, and her mother fought against breast cancer, especially if one has a family history. Williams checked herself regularly, and her mother fought against breast cancer as well. Williams said she had a scare two years ago when she thought she might have had a tumor, which turned out to be only a cyst.”

“Early detection is key,” Williams said. “We found and treated it very early.”

Williams said African Americans and Hispanics experience a higher mortality rate with breast cancer than other groups, usually because the disease is not detected early.

“Trends like this are important so everyone can become aware, and people can educate themselves and their fami- liy,” Williams said. “Without Twitter, Escamilla said she followed the movement since the beginning.”

Ford said she is not over and there are still uncertainties in the future. Ford is scheduled for a mastectomy next month, but she is certain of one thing. "I know how my story ends,” Ford said.

McKinley Museum's history of hoop skirts is on display at the museum. A Hoop Skirt on display at the McKinley Museum shows how undergarments evolved along with women's tastes. It traces how costume evolved into gowns and eventually suits, and follows the evolution of the bra, including such oddities as a 16th century garment that bound the chest to the shoulders and a 19th century bra that fattened the chest and gave women the бюстгальтер that was fashionable at the time. Undergarments are displayed alongside clothing from the times so viewers can hear how one top led to the other. The exhibit also includes a top made of ‘sheer’ and ‘bone’ and pants made by Tory Burch.

Bears make playoff case with marquee win

By Austin Gardner

Baylor enters No. 4 in the AP Poll and takes sole possession of first place in the Big 12 conference, much to the chagrin of many fans and programs in the conference.

For Robert Griffin III, a touchdown pass in the fourth quarter, there is no doubt his name is now considered among the greats. For Baylor, a win against No. 11 Oklahoma State that began the season unranked, doesn’t get any better.

On Saturday in Waco, Baylor fans rushed the field and celebrated a win against a top-10 opponent in the Ferrell Center.
