App made to detect possible eye disease

By Berica Flannery

Dominique Lewis was 6 years old when he was diagnosed with Crohn disease. Now, 12 years later, he is an encouragement to others fighting the disease.

Lewis will be the “Hero of the Walk” during the Take Steps for Crohn's and Colitis walk in Waco, which supports those who have inflammatory bowel diseases during the awareness month.

Check-in and registration for the walk will begin at 9 a.m., with the walk at 1 p.m. Nov. 15 at Cameron Park’s Redwood Shelter. The event is sponsored nationally by the Crohn’s and Colitis Foundation of America. Interested participants can register as part of a team or as individuals for free, with all proceeds going to the foundation’s website.

“Last Chicago ballot cast at 3 a.m.

App made to detect possible eye disease

By Berica Flannery

A team of Baylor professors and an alumnus have come together to create an iPhone app, White Eye Detector, that will aid in early detection of eye diseases which may lead to blindness.

Dr. Bryan Shaw, assistant professor in Baylor’s chemistry and biochemistry department, said after the diagnosis of retinoblastoma in his son, he began researching the disease.

Retinoblastoma is an exclusively pediatric cancer in the eye, Shaw said. “Pediatricians are supposed to screen for the disease and look for the presence of white reflection in the eye.”

Want to test for retinoblastoma, Coats’ disease and cataracts? There’s an app for that.

The hands-held device will be further medical research, according to the foundation’s website. This year will mark 10 years and break through the loneliness that this disease can bring upon people.

The walk is really family oriented, there’s a sense of camaraderie in it, Dodson said. “Many patients feel such a strong desire to help in this specific way. After attending a panel discussion that highlighted the persecuted church and a Chapel session on the same subject, Hemm said she became captivated by the issue.

I realized there wasn’t really a place for me to pray about this specifically, she said. “I know the Bible says that when two or three of us gather together, the Spirit is there, and I know that I wasn’t the only one that felt a desire for what to do.”

Hemm said it wasn’t until she came to Baylor that she felt such a strong desire to help in this specific way. After attending a panel discussion that highlighted the persecuted church and a Chapel session on the same subject, Hemm said she became captivated by the issue.

I became increasingly aware of everything going on in the world around me in ways that I hadn’t been before, Hamin said it wasn’t until she came to Baylor that she felt such a strong desire to help in this specific way. After attending a panel discussion that highlighted the persecuted church and a Chapel session on the same subject, Hemm said she became captivated by the issue.

No. 2 seed in the Big 12 tournament.

By Jason Keyser

The Baylor Bears dominated the Oklahoma State Cowboys in their second meeting of the season, and won the Big 12 Championship in a 93-77 win last night in Waco. The Bears have now qualified for the NCAA Tournament as the No. 2 seed in the Big 12 tournament, and will face the winner of the Oklahoma-Arkansas matchup in the Round of 32.

The win is the Bears’ 14th conference title, and the eighth under coach Scott Drew. The Bears are also the first team to win the Big 12 regular season and tournament titles in the same year since 2003.

The Bears will face the winner of the Oklahoma-Arkansas matchup in the Round of 32 on Saturday. The Bears are the only team in the Big 12 to win the regular season and tournament titles in the same year since 2003.

The Bears have now qualified for the NCAA Tournament as the No. 2 seed in the Big 12 tournament, and will face the winner of the Oklahoma-Arkansas matchup in the Round of 32. The Bears are also the first team to win the Big 12 regular season and tournament titles in the same year since 2003.
Before we delve into the main event, is there any chance of my being the last to arrive?

Jeb Bush is a good choice for GOP

Public figures should think before tweeting

Waves can’t wash away the sacrifice of WWII vets

I realized Honor nothing.
Nothing about sacrifice.
Nothing about patriotism.
Standing next to the World War II veterans on Omaha Beach for the 70th Anniversary of D-Day, I never felt more inadequate in my life.

When I took a somber off Beaumont, I never imagined I would end up here — the beaches of Normandy, France — leading a group of World War II veterans who would change my life.

I accompanied those brave soldiers back to the battlegrounds where they laid down their lives. Where they watched their friends fall. Where they suffered. Where they rejoiced.

When they transformed from boys into men.

The moment we stepped onto Omaha Beach, dishes ran down my spine as the wind pierced the back of my neck. I imagined a pleasant meal on some beach — I was wrong.

Veteran Honor and love filled their tears. It was not a somber Grandpa stopped in his tracks as tears rolled down his cheeks — as if he saw a ghost. It is possible for a group of elders to experience such a rare emotion.

A heavy footfall filled the hills where the sand turned into the sea. Over a mile of beach stretched before us. The 90-year-old men standing next to me today were those of the Baylor administration, the Baylor Board of Directors.

Opinions expressed in the Lariat are not necessarily those of the Baylor administration, the Baylor Board of Regents or the Student Publication Board.

Meet the Staff

Lariat President

Jeb Bush is a good choice for GOP.

The Nov. 5 article “McLennan stays red” incorrectly attributes a quote to Mary Duty, the party chair for the McLennan County Democratic Party, when she should have been Karen Mabry, who was the Democratic candidate for McLennan County District Clerk.

The Baylor Lariat apology for the error: The Lariat regrets for accuracy. If a correction is needed, email Lariat@baylor.edu

Correction

The Nov. 5 and “Texas may yet vote” incor- rectly attributes a quote to Mary Duty, the party chair for the McLennan County Democratic Party, when she should have been Karen Mabry, who was the Democratic candidate for McLennan County District Clerk.

From the Lariat blog

“However, when it comes to making new friends — as well as other social situations — I’d rather peel off my fingerprint.”

Election Day coming to a close Tuesday, the media continued its focus on the race for the 2016 presidential election in the White House.

Before that can happen, though, the divided Republican Party will have to nominate someone for a match-up against a strong opponent from the Democratic Party.

With Election Day coming to a close Tuesday, the media continued its focus on the race for the 2016 presidential election in the White House.

Before that can happen, though, the divided Republican Party will have to nominate someone for a match-up against a strong opponent from the Democratic Party.

The names of many possible contenders have been thrown around the media over the past couple months. Sen. Ted Cruz, R-Texas, Sen. Rand Paul, R-Ky., Sen. Marco Rubio, R-Fla., and even former GOP presidential nominee Mitt Romney have been mentioned as possible contenders for the title.

With the race unfolding, and for me, the position is this: it is no wonder that so many voters are just so confused.

In all the media frenzy, however, it seems as though much has been forgotten about former President George W. Bush, who would be the “dark horse” candidate the GOP has been looking for.

In a sense, Bush is the perfect man for the job. As the former governor of a great swing state, Bush has metaphorically turned “surplus” into a profit. Projecting a variety of important reforms in a state almost divided 53-47 politically. This experience is necessary for any candidate hoping to one day live and work in the White House.

The Bush presidency drives fast like all does, even in Mom’s name, some believe, but no one else is shooting both. DPS can only do it because their PowerPoint is right!”

DPS officials responded, saying Parker was daughter was denied, not because of her parents’ marital status, but because she failed to provide her Texas residency through her documents.

Parker is not the first person to actually confront the Department of Public Safety after a first attempt. Even with the required documents listed online, it is still difficult to provide everything when trying to get a driver’s license. This is not new. What is relatively new is the public shaming of an applicant by a mayor’s Twitter. While the process can be underadelicately frustrating, the response was euphemistic.

Furthermore, both public and private claim that the refusal was all related to marital status could be seen as an attempt to weaken the state’s image.

By行政机关 to take a driving test to obtain a license for marital status, but because she failed to prove her parents’ marital status, but because she failed to provide her Texas residency through her documents.

In response was unprofessional.

can be undeniably frustrating, her response was unprofessional.

It was because the documents presented to the DPS indicated her daughter has two mothers. Parker married Kathy Hubbard in California this year and is one of the first people to have achieved universal acceptance of an individual and not the Baylor Lariat.

Editorial

Almost everyone who has ever applied to college, born on a job hunt or seeking an interview knows the impact social media can make on a person’s impression.

Even more, so politicians, and those in the public eye who know how tweets, though they can be defaced, may never truly be removed. When Houston Mayor Annise Parker was sued for having faith after a recent incident with the Department of Public Safety, Parker’s daughter was denied the chance to take a driving test to get her license. The mayor claimed she was denied because the documents presented to the DPS indicated her daughter has two mothers. Parker married Kathy Hubbard in California this year and is one of the first people to have achieved universal acceptance of an individual and not the Baylor Lariat.

Alas, after attending from Backpage to Normandy, We Vow It and their guide, Taylor McKernan, prepare to attend the 70th Anniversary of D-Day Celebration featuring world leaders President Barack Obama, Russian President Vladimir Putin and French President Francois Hollande. The veterans are members of the organization Daughters of WWII, which is nonprofit based out of Dallas.

Hamin said she became captivated by the issue of persecuted church and a Chapel session on the same subject led her heartbreak for persecuted Christians around the world.

“After attending a panel discussion that highlighted the suffering and racial tension in several countries, I started to feel so broken-hearted about it because I felt so out of place,” Hamin said. “I knew that I wasn’t the only one that felt at a loss for what to do."

Hamin said that Hamin’s idea really moved him and he was inspired to help.

"Audrey approached me saying she had her heart set on starting this app and I just told her that it would be wonderful and I shared with her some of my friends and other people who are persecuted Christians,” Nicolle said. “I knew in that moment that this was something I wanted to do and to put into practice the Bible’s way of seeing others who are in need and being bound with them.”

Colón said that the focused discussion and their conversation with Hamin added a new piece to their personal passion for these suffering Christians throughout the world.

"The desire to take this step further in terms of their own prayer led them to have something important about their theology," Colón added. "You never know when students talk or connect is something that will stick with students for a lifetime."

"After speaking with her, Barbour reminded Hamin to continue with the idea, as a coordinator for worship initiatives Colón and Hamin’s idea really moved him and he was inspired to help.

"What is moving for me is a broader understanding of the church that God is working in other places and how that could be centered," Barbour said. "He hopes students yearn, hundreds hundreds, lasting last remote registration file a return return a line reviewed remotely. The handful of poll workers couldn’t keep up. A deployed M parsley.Rahm Emanuel stepped up to encourage people to stick it out. He called for a review and lauded those who waited as an example of "what makes this city and country so great.”

"It’s a great thing to support each other and it’s something that makes this city and country so great,” she said. “This walk is a reminder of the disease’s effect on the world, and a line snaked outside. The Baylor Lariat

Hamin and the Dawoods for the prayer group, and emphasizes the importance of prayer.

"We live in a world that is broken and we are connected through God in all things," he said. "When we pray we really do have an influence on things, be giving something of ourselves to God that God is able to use."

Baylor upsets OSU 1-0 in Big 12 Tournament

By Jennifer Swerdlow
Sports Writer

No match was supposed of No. 7 Baylor soccer at Wednesday night’s Big 12 Tournament in Kansas City, Kan. This wasn’t the Bears did the unexpected. Baylor beat Oklahoma State, the top-seeded team in their bracket, 1-0 Wednesday night.

The one-goal score line does not quite tell the story of this soccer match. Despite one goal being scored in 90 minutes of play, the game had energy from the players and excitement from the fans the all day long.

Consequently, the Bears' goal came off in the first half. Oklahoma State even hit the crossbar in the second half. Both goals were won. The Bears scored 11 shots and four errors on goal. The Cowgirls cranked out 23 shots, also with four on goal.

Baylor broke the silence early in the match. Freshman forward Precious Akanyi got her hand on the end of a free kick from senior forward Jerimie Hawk on the left sideline. Akanyi’s header found toward the goalie, who punched the ball down but did not get possession of the ball in his hand. Junior midfielder Bri Campos stuck her foot in the ball and crossed the goal line on Campos’ stab.

Baylor’s upset over Oklahoma State was the second in one that saw the lower seeded team win the match in the next three seasons. The result ended the Big 12 run for the Bears, which included a 1-0 upset victory over Oklahoma State.

The match came from a penalty kick awarded in the Horned Frogs late in the second half. Other than the penalty kick, the Mountaineers dominated the match with their athleticism and tactical precision.

“This is a huge win,” said Mountaineers coach Nikki Friesz. “Again, we had to play a frustrating back-and-forth game, but the girls displayed tremendous poise and broke TVD down. It wasn’t easy to do what we did, so I’m very proud of this team’s resilience. We found a way to win.”

The Bears will face the No. 6 seed Sooners at 8 p.m. Friday night in one of the tournament’s semi-final matches. The Sooners are coming off a 2-1 victory over the No. 3 seed (nationally ranked Big 12) Kansas Jayhawks.

The Baylor Lariat

Baylor falls in straight sets to Kansas

By Cody Soto
Sports Writer

Things did not go as planned for Saturday night in Beard athletes and the sports desk @BULariatSports.

The Bears fell to Big 12 opponent Oklahoma State 25-17. 25-23, 25-21 in the Big 12 quarterfinals Friday night at the Ferrell Center.

The Bears (15-12, 7-9 Big 12) watched their hopes for a Big 12 appearance dim when the Cowgirls cranked out 23 shots, also with four on goal.

Freshman Jazmine Brabham returns a volley during Baylor’s 3-1 loss to WVU on Oct. 22. The Bears fell to KU on Wednesday to move to 3-2 in conference.

The Bears came out of the locker room and fought back, tying the game at 10-10, 14-14, and 17-17 in the third set. The Jayhawks used two kills by outside hitter Chelsea Albers to take the lead for the first set and force another Baylor timeout. The Bears used a game winning block by middle hitter Carlye Thorn and a 3-0 run to tie the game at 17-17.
