Nonprofits aid elderly, disabled in need of heat

By Abigail Loop

Nonprofit organizations in Waco are helping to keep the homes of the elderly and disabled warm, as temperatures dropped substantially. “Share the Heat” is a campaign by a collaboration of nonprofits to help these individuals. The campaign’s goal is to raise funds to donate portable and self-heaters to those in need. Participating organizations include Meals on Wheels, Friends for Life, Caritas, Act Locally Waco and the Area Agency on Aging.

“Wubbenhorst said researchers focused mainly on diabetes. It’s rewarding to help organizations collect data on programs that could show positive outcomes. It’s crucial to change the dialogue between programs and taxpayers and the implementation of Services on the return of investment for programs and become part of a change. It’s essential for organizations to help West Dallas residents. It’s rewarding to help organizations collect data on programs that could show positive outcomes. It’s essential for organizations to help West Dallas residents.

Now, when were you diagnosed? I found out I had diabetes my senior year of high school in February of 2002. What I noticed was, over the winter that year, I was seeing symptoms of diabetes. I didn’t know what was wrong. I just thought I was a lazy high school student. I was really lethargic on a lot of the time, and I just thought I was being lazy, as a junior in high school – a senior can of a lot more.

What happened was, I dropped playing sports and just began excusing myself, my own and I lost about 30 pounds in a month, I was losing a lot of body content. I was dying a bit of a content. I was losing a lot of body content. I was losing a lot of body content. I was losing a lot of body content.

Professor develops new view on diabetes

By Rebecca Flannery

The American Diabetes Association is making efforts to educate the public about the widespread disease during November. As the final installment of the Diabetes Awareness Month series, Beth Christenson, lecturer in marketing at the Hankamer School of Business, explains how the perspectives of Type 1 diabetes conditions has changed over time.

BU evaluates effectiveness of faith programs in Dallas

By Aricka Jones

Baylor’s Institute for Studies of Religion has focused on the Dallas area, with particular interest in faith-based organizations to transform and improve the quality of life in the West Dallas area. Researchers at the institute released a research study this month called “Community Transformation in West Dallas: Developing and Measuring Collective Impact Initiatives.” The study was the result of a year-long effort between the institution and Serve West Dallas, a nonprofit collaborative that is comprised of 13 faith-based nonprofits, Dallas church, Dallas residents and businesses.

“Wubbenhorst said researchers focused mainly on diabetes. It’s rewarding to help organizations collect data on programs that could show positive outcomes. It’s crucial to change the dialogue between programs and taxpayers and the implementation of Services on the return of investment for programs and become part of a change. FSU shooter thought government was targeting him, journal shows

By Clay Fendley

The Florida State Police Chief Michael DeLeo said, “Based on our initial review of the documents and his videos and his postings, it’s clear that Mr. May’s sense of being and place in our community was not what most people would refer to as a normal.” DeLeo said, “Mr. May had a sense of crisis and he was searching for something.” The shooting sent students scrambling for cover in the book stacks and barricading themselves in with duds and arm rails from classrooms.

“I ran for my life,” said Albert Korpe, a freshman from Cocoa Beach, who was on the library’s first floor. “I ran right out the back door. My laptop and everything is still in there. It was shock. It was just in shock. You don’t think about anything else, you just run.”

One person in critical condition and one is in good condition at a local hospital, while the third was released. Mayor’s Facebook page showed he posted mostly Bible verses and links to conspiracy theory about the government reading people’s minds.

“Serve West Dallas is partnering with Baylor’s Institute for Studies of Religion to see how helpful the efforts of faith-based programs have been to the active communities in West Dallas.” 
Your Baylor mailbox is almost full!

It's about time we put those repetitive emails from Information Technology Services to rest.

The act allows the student to choose whether to download the file or to have it sent to them directly. There is also an option to send the file to another email address. This allows for easy sharing of information without having to constantly check your mailbox.

The act was created to address the issue of students being overwhelmed by an excessive amount of email. It requires that all email messages be delivered within 24 hours of receipt, and if not, a notice is sent to the sender.

Some disagreed with the act, arguing that it infringes on the right to privacy. Others believed it was necessary to prevent email overload.

In conclusion, the act serves as a useful tool in managing email. It provides an option for students to control when and how they receive email, and it helps prevent email overload.

Student government needs to support greater email storage

Wreaths to be placed on graves to honor veterans

By Sara Katherine Johnson

Every year in cemeteries across the country, people gather to pay respect to veterans who have died since the founding of the United States. This Christmas, the tradition will continue in Waco.

Oakwood Cemetery will do its part to honor veterans during the holiday season as the Waco Composite Squadron of the Civil Air Patrol joins Wreaths Across America to make sure each veteran’s grave has a wreath on it.

Wreaths Across America’s mission is “remember, honor, try and why the veterans deserve it.”

It’s a way to remember veterans specifically during the holidays. “There are about 2,500 veterans at Oakwood Cemetery. The goal is to raise the funds to have a wreath on every grave,” said Captain Jason Unwin of the Civil Air Patrol.

As of Wednesday, Unwin said $686 was raised. In $15 a wreath, that means there is enough for 46 graves. To place a wreath on each grave, the group will need to raise $57,700.

The ceremony will take place 11 a.m. on Dec. 13 and is open to the public. The ceremony will also take place nationwide at the same time.

“Our goal is to honor our veterans,” said Unwin. “These veterans fought from the American Civil War to the present global war on terror. It’s a way to recognize men and women who sacrificed for the country.”

Unwin said Baylor Air Force and Army ROTC groups have been invited to participate.

“Because they’re active duty, they’ll help with presenting the wreaths for such service branches,” Unwin said. “They’ll also be helping spread the wreaths on the graves.”

Marine Lederalis, a customs service representative with Wreaths Across America, said the ceremonies follow the same approved script.

The ceremony will begin with one minute of silence. Then the color guard posts colors which are the flags. Opening remarks will talk about the unity of the country and why the veterans deserve this nation’s continued respect.

Finally, the wreaths will be placed on the graves of fallen heroes.

“Wreaths to honor veterans” is Baylor Lariat’s annual Veterans Day story.

President Barack Obama announces executive actions on immigration Thursday at the White House in Washington.

By Ari Atrack

WASHINGTON — Spurning fears from Republicans, President Barack Obama invoked expansive executive actions on immigration Thursday night to spare nearly 5 million people in the U.S. illegally from deportation and refocus enforcement efforts on “felons, not families.”

The moves, affecting most parents and young people, marked the most sweeping changes to the nation’s fractured immigration laws in nearly three decades and set off a fierce fight with Republicans over the limits of presidential power.

In a televised address to the nation, Obama defended the legality of his actions and challenged GOP leaders to focus their energy not on blocking his measures but on approving long- stalled legislation to take their place.

“To those members of Congress who question my authority to make our immigration system work better, or question the wisdom of acting when Congress has failed, I have one answer: Pass a bill,” Obama said,flouting his presidential powers just two weeks after his political standing was challenged in the midterm elections.

As Obama spoke from the White House, immigration advocates and some Democrats, who wanted him to instead work better, or question the wisdom of acting when Congress has failed, I have one answer: Pass a bill,” Obama said,flouting his presidential powers just two weeks after his political standing was challenged in the midterm elections.

Obama announced new deportation priorities that would compel law enforcement to focus its efforts on tracking down serious criminals and people who have recently crossed the border, while specifically placing a low priority on those who have been in the U.S. for more than 10 years.

The president spent months trying to gain a House vote on the Senate bill, frustrating immigration advocates and some Democrats, who wanted him to instead take action on his own.

Obama dismisses GOP with immigration orders

St. Louis region prepares for Ferguson decision

By John Golick / Associated Press

ST. LOUIS — The St. Louis region is on edge in anticipation of an announcement from the grand jury that is weighing whether to charge police Officer Darren Wilson in the killing of 18-year-old Michael Brown.

The August shooting led to weeks of protests and rioting, and many people fear renewed violence if the grand jury decides not to bring charges.

Even if there are no arrests, the Missouri attorney general said the panel’s final decision could lead to increased violence.

“Given the level of emotions that have been run-up to this point, I think it’s very important that the public understands that our goal is to have a peaceful resolution to this situation,” said Missouri Attorney General Chris Koster.

Regional law enforcement officials are bracing for the announcement.

Several protesters gathered outside Ferguson police headquarters Tuesday. They were nonviolent, but warned that those who turn to violence will face consequences.

Kestein said the “ugliness” of violence will face the “嚴格的” of demonstrators, but warned that those who turn to violence will face consequences.

The St. Louis region prepares for Ferguson decision

In a press conference with the St. Louis Post-Dispatch and the St. Louis American, Ferguson Mayor James Knowles III said that he expects the grand jury to announce its decision by the end of the week. He added that he would be disappointed if the announcement was not made.

“Unless it’s done by the end of the week, you’re just going to have another week of tension and anxiety in the community,” Knowles said.

Meanwhile, officials in the St. Louis area are planning for potential unrest.

The Missouri Highway Patrol said it has increased its presence in Ferguson and the surrounding area. The Missouri St. Louis police department said it has deployed additional police officers to the area.

The decision will not only impact Ferguson, but the entire St. Louis region.

In a statement, Ferguson Police Chief Thomas Jackson said, “We are prepared to respond to whatever occurs in Ferguson.

Local officials said they have been in touch with the Missouri National Guard, which has deployed some of its personnel to the area.

Nixon said that while he has no control over the grand jury’s decision, he is confident that his administration will handle the situation appropriately.

Roofs collapse under snow in Buffalo

By Craig总队 / Associated Press

BUFFALO, N.Y. — Roofs began to crack and collapse across the region near Buffalo on Tuesday as weight of new snow by Thursday, after an economic effect on St. Louis.

With roads impassable, drivers were forced to park their vehicles on the side of the road as they waited for the highway to reopen.

A stretch of the New York State Thruway between western New York and eastern Pennsylvania was closed for the third day, raising the specter of new snow by Thursday as another storm was moving into the region.

Some areas got close to 3 feet of snow by Thursday, after a storm in the region on Monday.

The Buffalo area — one of the hottest and flattest in the country — is getting more snow than usual.

Governor Andrew Cuomo said more than a foot of snow was expected by Thursday, raising the specter of new snow by Thursday.

“The snowfall is significant,” Cuomo said during a news conference Tuesday morning.

Last weekend, which will make it even more difficult to shovel off the snow on roofs to shovel off the snow to down the danger.

Homeowners and store employees have been planning their response to the potential for additional snow.

“We’re working on it,” said John Davis, a manager at the Empire Mall.

Davis said the mall has been equipped with 50 plows, 129 loaders and 40 dump trucks to clear the snow.

Police were criticized in August for heavy-handed tactics, but warned that those who turn to violence will face consequences.

“Tears fell on both sides of the fence,” said Kestein.

The decision will not only impact Ferguson, but the entire St. Louis region.

In a statement, Ferguson Police Chief Thomas Jackson said, “We are prepared to respond to whatever occurs in Ferguson.

Local officials said they have been in touch with the Missouri National Guard, which has deployed some of its personnel to the area.

A French architect has discovered a mysterious stone sculpture at the bottom of the River Seine, which may have been there for centuries.

The sculpture was discovered by a diver in September.

Experts have not had time to date the age or origin — even how long it’s been resting in its watery grave.

But they believe it could be a statue that fell from the original bridge — The Pont Neuf — which ironically means “new bridge” in French — was completed in 1607 and is believed to be one of the oldest bridges in Paris.

Art to earn millions at London auctions

By STEPHEN BLAIR

LONDON — Two dozen paintings and sculptures, valued art works amassed by a private collector, including works by Pablo Picasso, Joan Miro and Rene Magritte. The collection is expected to earn $100 million dollars at a London auction.

A painting by Rene Magritte called ‘Le Therapeute’ is among two dozen modern and surrealist art works amassed by a private collector, including important paintings by Joan Miro and Rene Magritte. The collection is expected to earn $100 million dollars at a London auction.

“I was taught to be awarded Beauty of the Year over the entire institution in 2010,” Lee said. 

Lee said her journey through the film industry began in the 90s, when she was a child.

“The best making films since the early 80’s on my dad’s camcorder, three or four kids and I,” said Lee. “The film that made me want to become a filmmaker was ‘Star Wars’, the first film I saw in a movie theater.”

Her passion for film continued through high school when she got her first job.

“My 16th birthday I landed my dream job, working directly under a female filmmaker and PA manager I have waited 16 years to work in these doors and apply,” Lee said. “I had heard so much fuss and that has been my strategy in the business ever since.”

Lee’s personal business strat egy catapulted her into the film industry, landing her a job with Miramax Films in graduate school. Then, she worked on the award-winning movie “Chicago” giving her the opportunity to attend the Academy Awards.

Lee said after Miramax she grabbed her dream job in the story department for Columbia Pictures, where she worked on “Big Fish.”

“I have a deep passion for script development,” Lee said. “I had the chance to realize a passion for teaching and motivating individuals of the future film industry when she started working for the Columbia Film School.

“I have an equal passion for teaching and filmmaking, and I love my students,” Lee said. “I truly love them and appreciate their hard work and passion for study and film.”

“Lea is one of the most extraordinary students I have ever taught,” said More Darien Wulf. “I feel like I’ve learned a lot this year, ” said Plano sophomore Monica Hansen said she is a huge asset to Lee’s teaching career.

Lee approaches teaching with a passion for teaching and implementation of real-world learning experiences.

“The reason we brought her in was because of her experience in the field,” said Hansen. “I feel like this has been most beneficial because at the end, I’ll have a lot of take-away on a short film that I’m proud of,” said Wulf. “Because we went through all these steps, I have a big, big understanding of how the details work.

Lee said she hopes to combine the Baylor mission in her teaching, as well as implementing real-world learning experiences.

“Very few of us have worked for a professor’s experience in the industry when she started working,” said Wulf. “He hired me on the spot, and I feel like this has been most beneficial because at the end, I’ll have a lot of take-away on a short film that I’m proud of,” said Wulf. “Because we went through all these steps, I have a big, big understanding of how the details work.

Lee said she hopes to combine the Baylor mission in her teaching, as well as implementing real-world learning experiences.

Five fashion musts for men this winter

1. Vintage leather sneaker

Hurley pushed the Camper Domus sneaker because of its vintage appeal and look. "It’s a little bit dressier for a sneaker and has a great casual, chic vibe," he says. "We love how the blend of leather and rubber makes it more modern, but also more vintage. Wear a sneaker like this with dark denim, chinos or cords. ($165, camper.com)

2. A sporty cardigan

A sporty, updated cardigan or jacket in a neutral color, like charcoal, is extremely versatile, Hurley says. This Ashenvale cardigan from Billy Reid is the choice (Reid is a southern cut, which gives guys more shirts with a Euro-cut, more shirts that are too big for guys in the U.S. have worn looking like they’re wearing a t-shirt or blouse, and for a long time guys in the U.S. have worn shirts that are too big for them. Now we’re seeing more shirts with a European cut, which gives guys more confidence and they look better with a more elevated look." ($225, stevenalan.com)

3. Dark wash denim jeans

As noted, Hurley favors dark wash. "We encourage guys to wear more tailored pieces that can be dressed up or worn in a casual setting. It’s super comfortable and soft – a beautifully tailored piece that really rounds out the whole outfit," Hurley says. "We encourage guys to wear more tailored pieces whether it’s a shirt or jeans." He says, "We think this is a classic cut. The fit is achieving comfort but really isn’t too much volume, because that detracts from the look." Be sure to get the dark wash ($235, ralphlauren.com).

4. Long-sleeve button-down shirt

A long-sleeve button-down shirt for the more reserved guy, with modest details, but this Steve Alan Classic Collegiate in navy is Hurley’s favorite. "We love that vintage inspiration," he said. "And it’s linen and cotton, which makes a beautiful print on the shirt, and has a very unique feel on the fabric." As with jeans, Hurley stresses fit when choosing men’s shirts. "We recommend something that’s more of a tailored fit, because we don’t want guys to look like they’re wearing a blouse, and for a long time guys in the U.S. have worn shirts that are too big for them. Now we’re seeing more shirts with a European cut, which gives guys more confidence and they look better with a more elevated look." ($235, ralphlauren.com)

5. A cashmere beanie

When picking a beanie (around here, many natives call them toboggans), Hurley says to pick one simple. "Get something modern with interesting details that isn’t calling too much attention to itself," he says. He likes flat-brimmed or basic hats and that’s his favorite. "It’s basically wearing a hat, and it’s pretty warm. Plus, it’s just a great hat. So, if you’re hot, get that really soft, supply cashmere and it is, as such, an exceptional looking piece that really rounds out the whole outfit ($575, filson.com).

6. Classic leather-band watch

A classic leather-band watch can be worn with anything, Hurley says. He loves the Shinola Runwell not only because the company is helping revitalize American manufacturing, but also because it has a "straightforward, elegant" look. "We love theupdate of the classic style watch," Hurley says. "It harkens back to that heritage vibe in the ’50s. It really adds beauty to a guy’s ensemble and timeless sophistication." And you’ll be happy to know that along with the Runwell comes a lifetime guarantee from Shinola. ($350, shinola.com)
Senior quarterback Bryce Petty runs for a gain during Baylor's 41-12 win over the Oklahoma Sooners on Nov. 7, 2013. The Bears will hold another Blackout game this Saturday.

Baylor is in a lot of atmospheres and I would rate that last year’s atmosphere for the OC game as the best of the best. Our crowd was unbelievable. They were out there way before the game started and they were anxious and ready and excited and very supportive: It was a big day for Baylor.

By Jeffrey Swindoll

Behind enemy lines

The Cowboys are playing about as poorly as they have in 15 years. Losing at home with two turnovers against Oklahoma is embarrassing. Gundy’s first year as coach has been a disaster. He led OSU to a 2-6 record in conference play and is 1-7 overall. OSU was outscored 254-100 in conference play.

The Cowboys need to get things going now before it is too late. The Bears are the best team in the Big 12 and are the favorite to win the conference. The defense is on fire and the offense is clicking on all cylinders. OSU has been blown out by a Big 12 team – 42-9 in October. The Bears have done a good job pressuring quarterbacks this season. Defensive end Shawn Oakman is third in the Big 12 with 8.5 tackles for loss this season. Oakman also tops the conference in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season. Baylor's receivers helped revive and accentuate Petty's abilities this year.

Baylor tops the country in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season.

Baylor also tops the country in tackles for loss per game. Oakman has 12.5 tackles for loss in 2014, Baylor's defense has limited teams to 143 points or less in five of nine games in 2014. Baylor also tops the country in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season. Baylor's receivers helped revive and accentuate Petty's abilities this year.

Baylor seeks revenge over OSU

The Bears, just like last season have a lot of experience with one another. It's tough to get in a rhythm with new players, but the Bears have done a good job of getting the offense clicking on all cylinders. The defense is on fire and the offense is clicking on all cylinders. OSU has been blown out by a Big 12 team – 42-9 in October. The Bears have done a good job pressuring quarterbacks this season. Defensive end Shawn Oakman is third in the Big 12 with 8.5 tackles for loss this season. Oakman also tops the conference in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season. Baylor's receivers helped revive and accentuate Petty's abilities this year.

Behind enemy lines

The Cowboys are playing about as poorly as they have in 15 years. Losing at home with two turnovers against Oklahoma is embarrassing. Gundy’s first year as coach has been a disaster. He led OSU to a 2-6 record in conference play and is 1-7 overall. OSU was outscored 254-100 in conference play.

The Cowboys need to get things going now before it is too late. The Bears are the best team in the Big 12 and are the favorite to win the conference. The defense is on fire and the offense is clicking on all cylinders. OSU has been blown out by a Big 12 team – 42-9 in October. The Bears have done a good job pressuring quarterbacks this season. Defensive end Shawn Oakman is third in the Big 12 with 8.5 tackles for loss this season. Oakman also tops the conference in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season. Baylor's receivers helped revive and accentuate Petty's abilities this year.

Baylor tops the country in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Oakman and Bachelor are the best receiver this season. Baylor's receivers helped revive and accentuate Petty's abilities this year.

Baylor also tops the country in tackles for loss per game. Oakman has 12.5 tackles for loss in 2014, Baylor's defense has limited teams to 143 points or less in five of nine games in 2014. Baylor also tops the country in total of −45 rushing downs (9) and all purpose yards per game (137.7), scoring touchdowns per game (12 to accumulate 200+ yards in one game). Baylor women's basketball host BTI tournament

By Jeremy Mendoza

Waco has flourished into one of the nation's epicenters of women's basketball. For the second year in a row, the Bears host the Basketball Traveling Invitational (BTI) at the Ferrell Center on Nov. 28. BU will take on Prairie View A&M at 6 p.m. followed by Marist at 11 p.m.

The Bears (2-0) begin the week with a home game against Prairie View A&M at the Ferrell Center. Baylor took most recent win against South Carolina in Tuscaloosa as the team ranked for a 69-60 road victory.

"It's better to learn from a loss than a win," head coach Scott Drew said. "Going into the game, I know we were going to be a better team afterwards whether we win or lose."

Senior guard Karen Chery averages 4.5 points in two games, followed by freshman Jordan Madden with 3.5. Former Bears O'neal and Rico Garcia controls the boards for Baylor as the duo average 7.5 and 6.5 rebounds per game. However, with only two contests underway, the nonconference season can go either direction.

Chery scored 18 and 15 points in the second half, hunting the team over the Gamecocks and scoring two clutch shots at the end of the game. Madden had already shown potential with two baskets for two seniors.

"Jordan [Madden] has done a good job in games, and that's a carry over from practice," said Drew. "Baylor and Kenny have done a great job getting them ready to play. I'm happy with what we need from him and making sure his confidence is up for the every day.

"We need to do that, then we're going to beat a good team, " he added. "It's going to be my job and helping us win.

"Jordan should have two games against Prairie View A&M and at Marist. He has a culture that cultivates championship-caliber teams."

Baylor will take to the tournament ste - eas in Las Vegas, Nev. to face Monmouth on Thanksgiving Day. The Tigers (1-1) dropped their season opener to No. 11 Wichita State 71-64 on Nov. 12 behind a 48.1 percent shooting average and only 2-2 from beyond the arc. In the loss, Nick King led Memphis with 16 points and ten rebounds. Three other players contributed double-digit points as well.

Baylor and Memphis played at 7 p.m. on Friday.

Baylor will rally for a 69-65 road victory.

"Going into the game, I knew we were going to do that, then we're going to beat a good team. "

"We need to do that, then we're going to beat a good team. "

By Cody Soto

There was a bit of scrambling last week when the Bears traveled to Manhattan with help from the Kansas State defense. Since the Bears' loss on Nov. 14, senior guard Devin Williams has been cleared to play as a senior, and Kenny has done a great job giving him playing time.

Motley has already shown a lot of energy throughout the season so far, dropping its first two games in a Baylor uni - form and scoring well. The Bears are 6-0 overall and 18-2 in conference.

"We need two or three hitters hitting well and not errors. We need to come out and do everything we can to get as far as we can go," senior middle hitter Thea Stamos said.

"We need two or three hitters hitting well and not errors. We need to come out and do everything we can to get as far as we can go," senior middle hitter Thea Stamos said.

"There were a lot of missed opportunities," junior setter Malloy Baucom said. "Every time we're going to do our job and help us win.

"We need to take advantage of our opportunities," senior middle hitter Thea Stamos said. "We need to take advantage of our opportunities."
