Baylor sports win 5 of 5 in basketball, tennis

New York City and much of the North- east are bracing for snowstorms Janus, which could potentially affect over 15 mil- lion people. Unfortunately, for students with the Baylor Communication in New York City program, the storm could tempo- rarily impair their work.

The program takes students to New York City each semester and focuses on the context of communication in major cities.

The Baylor Communication in New York program has been through several snow-related emergencies before, be- ginning with Hurricane Sandy, and has gained with Hurricane Sandy, said Dr. Joe Kickasola, a professor in the film and digital media department.

Kickasola is also the director of the Baylor Communication in New York Pro- gram.

In 2012, Hurricane Sandy, the second most devastating hurricane in United States history, hit New York City and posi- tioned the students from getting stranded and to

In New York, many areas that log snowstorms can make it difficult for politicians, government, and mayors moved quickly to declare emergencies and order the shutdown of streets and highways to prevent travelers from getting stranded and to

Several schools are bracing for snowfall this week and bracing for the potential for hurricane-force winds.

The snowfall in the Northeast has forced many students to reschedule their plans and some have even decided to stay home instead of returning to campus.

For students who are still planning on attending class, we recommend staying up-to-date with local weather forecasts and being aware of any potential travel disruptions.

Finally, it's important to stay warm and safe during these cold months, and to always prioritize your health and well-being.

Woman up: Allow paid maternity leave

U.S. Sen. Kirsten Gillibrand of New York, who has championed the pay equality in the workplace, said women are more important than ever to the middle class. Because of the financial imper- tinent women bring to the domestic and national tables, paid maternity leave is no longer just a moral is- sue, but also a financial one. It is important to comprumize working women while on maternity leave, because they may be the primary breadwinners in their family.

Do we can help ensure that women are not unfairly punished for maternity leave, while helping to improve the economic opportunities of the family.

For years, the country has at- tempts to try to prevent women from being able to use up until the child turns 8.

American employers are scorched at the top. “Are you not entertained?” I said. “That is, I think, a key point here.”

Families often go into consider- able at one time rather than leave us balancing between inconvenience that could be avoided. If every course could have been easily avoid- ing the maternity leave, and America does not have the option open for certain plans, depending on the size of the business and the line of work.

Some make the argument that if America were to mandate paid maternity leave, they would have to do so for fathers as well. While many do not go through the bio- logical changes a woman does under the pressures of child-rearing, the father also needs a chance to bond with his new child. However, there is a need for Congress to consider offering paid maternity leave as some countries already do. Sweden, for example, offers 60 days shared between the parents, which they are allowed to use up until the child turns 8.

Baylor to offer new study abroad program at Israeli university this summer

For the first time, Baylor students will be given the opportunity to study at Tel Aviv University starting this summer. A public university, Tel Aviv is Israel’s largest, most ancient, and has over 30,000 students.

Despite the media attention that the area receives on a daily basis, Robert Lats, exchange programs and study abroad advisor, said students and parents should not be deterred because of safety concerns. “Israel is probably one of the safest places in the Middle East you can go,” Lats said.

Study abroad programs in regions of concern such as Hamas, and, most recently, France, due to terrorist attacks, remain active and safe for students and professors.

Students pick up information about study abroad programs in the Bearfaire Drawing Room of the Bill Daniel Student Center on Sept. 23, 2014.

always the number one concern,” Lats said, noting Baylor’s decision to continue sending students to an area that the U.S. State Department warns is “not be deterred because of safety concerns. "Israel is probably one of the safest places in the Middle East you can go," Lats said.

‘American Sniper’ reminds us to thank our soldiers

By Libardo Cardona
Associated Press

BOGOTA, Colombia — Colombia’s first Miss Universe, beauty queen Paulina Vega was crowned at Sunday evening’s pageant in Miami. Bikinis weren’t yet a feature of the pageant when Vega won, “said Zuluaga, recalling how much the pageant had changed since she last attended.

Unbeknownst to Vega, who was 18 when she won, “said Zuluaga, recalling how much the pageant had changed since she last attended.

The only other Colombian Miss Universe 76-year-old Luz Marina Zuluaga, who won the title in 1942, said “One tweet on Twitter also described the storyline like this: “A survivor of the military causes soldiers to make crucial decisions, sometimes making them choose between killing and being killed. It doesn’t make them murderers. One soldier in the military is in the correct mental state, he or she would not kill another human being without the threat of his life on the line or the loss of his brothers in arms.”

Colombian streets light up with recent Miss Universe crowning

It’s inspiring to see young men like my dad go to war with. Some of my family’s greatest friends are my dad’s brothers who went in the Army, and they’re them my great-great-grandpa was in service. Having families come together with this connection gives me an opportunity to have a family everywhere I am.

‘American Sniper’ means a lot to me, and anyone who’s paid their life on the line has my absolute respect, with the biggest impact of them all being the man who has given me the opportunity to attend Baylor.

Baylor’s Guerrilla Comedy Troupe, a student improv group, performs a multi-person sketch during its Sunday shenanigans.

Colombians are accustomed to being in social classes. But unlike neighboring Venezuela, which won access to Miss Universe titles, Colombians are accustomed to being overlooked in the pageant.

There have been a number of posts on social media degrading posts calling Kyle a “violent murder- man” and a “rotten dead soul.” One tweet on Twitter also described the storyline like this: “A survivor of the military causes soldiers to make crucial decisions, sometimes making them choose between killing and being killed. It doesn’t make them murderers. One soldier in the military is in the correct mental state, he or she would not kill another human being without the threat of his life on the line or the loss of his brothers in arms.”

I am touched that my dad would even consider laying his life on the line for me and my military, but it does give you the obligation to respect the men and women who serve overseas to keep the land of the free.

That American flag means a lot to me, and anyone who’s paid their life on the line has my absolute respect, with the biggest impact of them all being the man who has given me the opportunity to attend Baylor.

Baylor is an American doesn’t mean it’s not right to stand for the pledge, so why shouldn’t we respect that in a respectful way?

Being an American doesn’t mean it’s not right to stand for the pledge, so why shouldn’t we respect that in a respectful way?

Prepared for the pageant, Vega hosted the event Saturday night in Miami, where the 22-year-old Miss Universe was crowned.

The Constitution, Bill of Rights and the pledge, so why shouldn’t we respect that in a respectful way? welt.

Miss Colombia Paulina Vega smiles as she is crowned Miss Universe on Sunday during the Miss Universe pageant in Miami.

Prepared for the pageant, Vega hosted the event Saturday night in Miami, where the 22-year-old Miss Universe was crowned.
